

TO EXEMPT ALL PROPERTY AT SEA FROM WAR'S PERIL.

Concurrent Resolution to Be Introduced
Authorizing the President to Ne-
gotiate for It.

Washington, Jan. 19.—The President in his last annual message to Congress pointed out the need of securing an agreement with the principal maritime powers for establishing a permanent law of civilized nations the principle of the exemption of all property at sea, not contraband of war, from capture or destruction by belligerent powers in time of war.

Senator Marshall Has a Bill
of Remarkable "Priv-
ileges."

PARK AVENUE IN DANGER.

The Measure in Effect Gives the
N. Y. Central the Right to Run
Street Cars Thereon.

Albany, Jan. 19.—Senator Marshall will tomorrow introduce a bill which permits all steam railways whose grade has been elevated or depressed by municipal ordinance to retain the right of way and control of the thoroughfare as originally granted for transportation purposes.

The bill is thought to be of especial significance to the Long Island Railroad, where its tracks are laid on the line of Atlantic avenue, Brooklyn, and also to the New York Central Railroad on that section of its route from where it emerges from the north end of the Park avenue tunnel to where it crosses the new railroad bridge at the Harlem River.

Local ordinances both in New York and Brooklyn have made it necessary to either depress or elevate the tracks of both these companies for a number of miles along these avenues of travel. This leaves the original surface of the street free to be used for other modes of transportation besides that of steam power. Mr. Marshall's bill seems in intent to preserve to the railroads thus having to elevate or depress their tracks the right to use the surface of the street for trolley, cable or any other form of transportation. The right to acquire space for the use of switches and turnouts along the surface of the street is also reserved by the bill to the railroad company possessing the original right of way.

If the present surface railroad rivalry in New York and Brooklyn there has been much speculation as to which of the big traction companies would secure the surface rights apparently left open on Atlantic avenue in Brooklyn and Park avenue in New York. The latter thoroughfare has not yet been graded to the proper street level, although the New York Central has been using its overhead structure for a number of months. The Marshall bill is intended to settle the controversy as to the ownership of the right of way on these profitable avenues of travel.

COGGESHALL AT WORK ON A PURE BEER BILL.

Expects to Introduce It Next Week, and
Believes That It Will Become
a Law.

Albany, Jan. 19.—Senator Coggeshall, who is at work on a pure beer bill, which he hopes to have ready to introduce by the end of next week, said to-day to a representative of the Journal:

"Efforts to enact such a measure into law have heretofore failed because the conditions were made too drastic. It is my purpose to construct a bill on so liberal a plan that no valid objection can be made to it."

"It shall place the task of discovering whether the beer manufactured is pure in the control of the State Board of Health. Whenever the Board finds that a beer is impure the District Attorney of the county in which the beer is made must be notified and he must begin an action. In all probability the penalty imposed on a brewer will be a fine of not more than \$1,000 nor less than \$200. For the second offense the penalty will be imprisonment for from one month to one year."

"My bill will also provide that all fermented liquors shall be made only with pure barley malt, pure hops or pure extract of hops, pure yeast and pure water, and nothing else. And all which shall have been brewed at least three months shall be marked 'Standard.' All other kinds must be marked 'inferior.'"

"The bill will also contain a provision that every brewer shall keep posted on his business premises a placard plainly stating the kind of malt liquor he brews. Every barrel, keg, cask or bottle must be labelled. Once every three months brewers must file with the Board of Health a statement of the quantity of malt and hops brewed, the quantity of barley malt and the name of all other ingredients used. All such statements must be sworn to by the brewer and by his foreman or manager."

FIRST STEP TOWARD UNEARTHING CANAL FRAUD.

A Resolution in the Senate Calling for
All Information About All the
Contracts.

Albany, Jan. 19.—The Senate took the first step to-day toward uncovering the fraud that seems to have marked the recent administration of the canals. The step came in the shape of a resolution that was introduced by Chairman Higgins, of the Senate Finance Committee, requesting Superintendent of Public Works Partridge and State Engineer and Surveyor Bond to furnish to the Senate information as to the total number of contracts let, the names of the contractors, an outline of the work performed and all other information bearing on work done or contemplated.

In a few days the work of clearing out the old employees of the Public Works Department and the engineer's office will begin in earnest. As exclusively reported in this newspaper, about thirty-five men have been discharged from the engineer's office, and many others are to go. It is not likely that one will be left who has been connected in any way with the old method of running the canals.

NEW GOVERNOR TRICKED BY OLD LAWMAKERS.

He Signs a Bill Appropriating \$27,000,
Chiefly for the Hangers-On of
Politicians.

Albany, Jan. 19.—Governor Roosevelt signed his first bill to-day. It is Chapter 1, of the Laws of 1899, and the inexperienced Governor has apparently been deceived by these old-time machine lawmakers. Ellisworth and Aldis.

The measure appropriates \$27,500 for advances by the Comptroller to the clerks of the Senate and Assembly for "such contingent expenses and clerical services" as may be approved by the Speaker and President pro tem. It covers a multitude of political sins and pays many political debts. The law makes about one hundred places for the hangers-on of Republican politicians. It has been a yearly scandal, of which the Governor may have been unaware.

The Wanamaker Store

Four Hundred Overcoats

HERE'S the Clothing Store, with a story concerning four hundred common-sense overcoat bargains, that is worth reading carefully.

These are not from our own stock,—we have just bought them. But we made them toe our overcoat standard line and inspected them microscopically. They passed easily. We have nothing in our own stock any better in their grades.

Blue and black kersey, black and Oxford frieze, and cheviots. All new coats, and all that they should be.

The \$12 kind for \$8.50
The \$15 kind for \$10
The \$18 kinds for \$12 and \$13.50
The \$20 and \$22.50 kinds for \$15 and \$16.50
The \$30 kind for \$20.

Boys' Clothing That Doesn't Cost Much

made, durable, good-looking clothing. For instance, \$5 procures a sailor suit of exceedingly good quality—blue serges and fancy mixtures, tastefully trimmed with silk soutache. Many in this lot were \$9, some were only \$7.50. Now \$5. Other money-savers:

At \$5—Reefers in blue and brown chinchilla; wool lined; \$7.50 kinds.
At \$3.75—Reefers of kersey, frieze and chinchilla; \$5 and \$6 kinds.
At 75c.—Boys' corduroy knee trousers; the \$1 kinds.
At 50c.—Boys' flannel blouses and shirt waists; were 75c. and \$1.
At 50c.—Boys' all-wool knee trousers; 75c. and \$1 kinds.

Carpet Selling Extraordinary

A ten-cent-a-yard cut on a carpet price is considerable. Carpets are sold very "close," and it is a cut that you do not see every day. Perhaps it doesn't seem very large until you come to figure up the aggregate saving. It is really a very material cut.

Now then, instead of cutting prices by a dime a yard, we are cutting them by half dollars. Figure the aggregate saving in that. Fifty styles in finest Wilton carpets have been cut from \$2.50 a yard to \$1.65. That is 85c. a yard saved—figure the saving in a large parlor. Axminster that were \$2 a yard are now \$1.50. The cutting continues all down the line to the Brussels and Tapestries, and the further down the price scale you go the larger the proportional reductions.

The Carpet Store is having its annual cleaning out. It's a painful experience while it lasts, but fortunately it doesn't last long. If you want carpets, you'd better come in.

Not the euphemism that

speaks of cotton sheets

and pillow cases as bed

linens, but the real flax itself, with

never a thread of cotton in it.

We make a specialty of these

goods, and use the whole strength

of our linen-power to get the prices

down toward the cotton figures. Of

course we cannot reach the cotton

figures,—they will always be lower

than flax prices, but we can at least

make linen luxury easy for you, this

way:

At 50c. yd.—Good Irish linen sheeting;

well made and durable; 72 in.

At 60c. yd.—Good stout Irish linen sheeting;

90 in.

At \$3.50 pair—Fine substantial hemstitched

sheet; round thread; 90x96 in.; former

price, \$5.

At \$5 pair—Sheets of German round thread

linen; fine quality; 90x96 in.; were \$6.50.

At 70c. pair—Well made hemstitched pillow

cases; 22x36 in.

At 70c. each—Well made hemstitched linen

bolster cases; 22x72.

At \$1 pair—German linen pillow cases;

22x36.

At \$3.75 pair—Linen sheets for single bed;

one row open work; 72x90; were \$4.25.

Fourth avenue.

Japanese Gowns, Jackets and Vests

is left of last fall's

importation—some elegant pieces

with Japanese embroidery in the lot

—is now marked at quick good-bye

figures.

Beautifully embroidered gowns, wadded, at

\$6.25; former price, \$12.50.

Embroidered jackets at \$3.25; were \$6.50.

Sleeved vests at \$1.25; were \$2.25.
